This book suggests ways to avoid this result, but shows that safer cars and highways are a hard road to travel.

Comprehending Cults, Second Edition, provides a sociological interpretation of the phenomenon of new religious movements. While the author does not offer an apologia for cults—what do we really know about them? Long the focus of controversy, cults or what sociologists prefer to call new religious movements, have been studied by scholars for years. Yet little of this information has made its way into public awareness. This book summarizes, synthesizes, and assesses the results of years of research into new religious movements by historians, sociologists, and psychologists of religion. Organized in terms of seven of Read Full Overview. Edition Details.

==new religious movements==. From the early 60â€™s, there was a large growth of the number of religious organisations in society. CHURCH â€“ Large, universalistic organisations aimed to include the whole of society. Run by a hierarchy of priests and claim to have the monopoly of truth. Membership is more inclusive and they broadly accept societyâ€™s values. They do not claim to have the monopoly of truth. CULT â€“ Highly individualistic and loose knit. Led by â€œpractitionersâ€ or â€œtherapistsâ€ who claim special knowledge. Tolerant of other organisations and beliefs. Do not demand strong commitment from followers. WALLIS coined the term â€œnew religious movementâ€ to cover the different types of religious movements growing. Characteristics of New Religious Movements. The enormous diversity within the current wave of new religions cannot be overemphasized. Whilst nineteenth century sects such as the Jehovahâ€™s Witnesses, Mormons, and Seventh Day Adventists certainly differ from one another, they do share some sort of relationship to the Judeo-Christian tradition. Furthermore, economic, political, and social changes in the outside world can introduce radical changes within the â€œcult scene.â€ Comprehending Cults, Second Edition, provides a sociological interpretation of the phenomenon of new religious movements. While the author does not offer an apologia for cults—in either a religious or a sociological sense—he does attempt to replace suspicion and misinformation with a greater knowledge of the facts (as best we know them) and a measure of sympathetic understanding. Completely revised and updated in this second edition, the book examines all aspects of cults, while striving to delineate the very real limits of our knowledge. In addition to dealing with the troublesome aspects o
New Religions Studies (NRS), an emerging area of specialization in the academic study of religion, has as its primary mission the study of new religious movements (NRMs). While NRS has its roots in a variety of disciplines—anthropology, history, psychology, religious studies, and sociology—the discipline of sociology has played a particularly prominent role in its emergence and development. As NRS has evolved, key issues for sociologists have included defining the area of study (NRMs) as well as distinguishing different types of NRMs; analyzing the patterning of conversion to new religious traditions; describing distinctive features of NRM myth and ritual, organization, and leadership; and exploring potential trends in NRM development. *This book is undoubtedly the best introduction to New Religious Movements (NRMs) as sociological phenomena. Not only does Dawson have a gift for summarizing and evaluating the major theories, but, more importantly, he is able to provide structure and meaning to the ways in which we conceptualise the issues surrounding NRMs*—Dr. Lorenzo DiTommaso, McMaster University. About the Author. Lorne L. Dawson is a Professor of Sociology and Chair for the Department of Religious Studies, University of Waterloo. Product details. Radical Religion in America, xiii-46. Gendered Experience: Calico, NRMs, Palmer, Women's 'Cocoon Work' in New Religious Movements: Sexual Experimentation and Feminine Rites of Passage. Puttick, Elizabeth. Women in New Religious Movements The sociology of religion is primarily the study of the practices, social structures, historical backgrounds, development, universal themes, and roles of religion in society. There is particular emphasis on the recurring role of religion in nearly all societies on Earth today and throughout recorded history. However, many others continue to study the role of religion, particularly New Religious Movements, both for the individual and as it affects our increasingly multi-cultural society. In order to establish a world of peace, harmony among religions is essential. Sociology of religion is a field that should have much to contribute to the understanding necessary to advance such a world. History and relevance today.
