Introduction to Religion. Why do sociologists study religion? For centuries, humankind has sought to understand and explain the â€œmeaning of life.â€ Many philosophers believe this contemplation and the desire to understand our place in the universe are what differentiate humankind from other species. Religion, in one form or another, has been found in all human societies since human societies first appeared. Rising from the concept that our world is socially constructed, symbolic interactionism studies the symbols and interactions of everyday life. To interactionists, beliefs and experiences are not sacred unless individuals in a society regard them as sacred. The Star of David in Judaism, the cross in Christianity, and the crescent and star in Islam are examples of sacred symbols.
This course introduces students to the primary material of the classic theorists of religion, who approached these and other questions from a variety of disciplines, including anthropology, sociology, psychology, and history. We will evaluate the explanatory strengths and weaknesses of their theories and trace the development of religious studies as a secular academic field of study. Course readings will be drawn primarily from the writings of the most influential early scholars of religion. More recent perspectives and critical responses to these theories will be introduced and discussed in class. Questions for class discussion: What do we mean by the term race? This introduces one of the most significant criticisms of this definition - the typology can include things that are not traditionally understood to be religious (like cars or toys). As a result, the definition is extremely broad and can encompass substantial elements of social life. For instance, while most people in the United States would not consider their nationalism to be religious, they do hold the flag, the nation's capitol, and other national monuments to be sacred. The reader may notice that many of the labels for the types of religion are commonly employed by non-sociologists to refer to religions and tend to be used interchangeably. Many of the early sociological theorists proposed theories attempting to explain religion.
