John Stuart Mill (1806-1873) is the most important of Britain’s nineteenth-century philosophers. His writings and activities were many and varied. The works reprinted in this volume were first published during a particularly prolific ten-year span, from 1859 to 1869. On Liberty (1859), Considerations on Representative Government (1861), Utilitarianism (1863), and The Subjection of Women (1869) are four of his most famous works; they are central pillars on which Mill’s high reputation rests. Also included for the light they shed on Mill and his times are two of his lesser-known works - The Contest in America (1862), written in the context of the American Civil War; and his erudite but accessible Inaugural Address Delivered to the University of St Andrews (1867). Mill contributed to several contemporary debates, including ones about where to draw the proper boundaries between the liberty of the individual on one hand and the security of the state on the other. Living as we do in a world where those boundaries continue to be tested and contested, Mill’s timeless writings are of no less value...

On Liberty is a philosophical essay by the English philosopher John Stuart Mill. Published in 1859, it applies Mill's ethical system of utilitarianism to society and state. Mill suggests standards for the relationship between authority and liberty. He emphasizes the importance of individuality, which he considers prerequisite to the higher pleasures—the sumum bonum of utilitarianism. Furthermore, Mill asserts that democratic ideals may result in the tyranny of the majority. Utilitarianism and liberty. Ask Question. Asked 6 years ago.Â This is most likely a stupid question, but it has been on my mind for a really long time now. We think of utilitarianism as saying "action X is right if it promotes happiness and wrong if if it promotes unhappiness". This is the so-called principle of utility. I understand that libertarianism (basically) says that A government should only impose its power on its citizens (e.g. arrest someone) in order to prevent harm to others. (the so-called harm principle). Could someone familiar with this sort of philosophy explain the relationship between the principle of utility and the harm pri
